ABOUT THE CONFERENCE

Oncology ETC is the official name of the **4th Annual Conference of Oncology Forum** of Delhi NCR and is being organized in a **Hybrid** format on the 1st weekend of December with 3rd and 4th December being only **virtual** event and 5th December being a **physical** meeting.

Oncology Forum is the largest conglomerate of oncology clinicians in Delhi NCR region. It was established in the year 2013 and since then has grown into a fold of **over 200 members**. It not only has surgical, medical and radiation oncologists but also palliative care physicians, molecular oncologists, pathologists and radiologists. Oncology Forum has a dynamic forum with many subspecialty forums like Delhi Thoracic Oncology Group, Delhi Breast Oncology Group to name a few.

Oncology ETC focuses on **EVIDENCE, TECHNOLOGY & CONSENSUS** in field of Oncology. During the course of this meeting, we want to discuss the EVIDENCE generated in 2021, develop CONSENSUS on contentious issues and deliberate on the upcoming TECHNOLOGY in the next decade.

CONFERENCE FORMAT

DAY 1: EVIDENCE

Each organ system is devoted 60 minutes to discuss about the new generated in the year 2021. We have invited speakers of national repute to chose 10 – 15 publications/ advances in their field of expertise which will have maximum impact in management of cancers. Two publications which are of maximum significance will be elaborated and looked at incorporating in our Indian Context.

DAY 2 : CONSENSUS

We have planned two debates on most contentious issues in our daily practice in each major organ system. These debates will cover most burning issues that we face in daily practice and help us drive consensus. Two practicing oncologists will put forth their point of view passionately and will be followed up by senior faculty members to present their thoughts on the basis of their experience.

DAY 3: TECHNOLOGY

We hope to have a physical meeting (COVID allowing) where we have senior and very senior practicing oncologists discuss on the new and upcoming technological marvels which can decide the direction of oncology in the next decade. This day only includes panel discussions with topics ranging from feasibility of MR Lineac to advantages of tomotherapy., from opulence of robotic surgery to economics of Indian made staplers and biosimilars.
